

New Machinery Hazard Identification, Assessment & Risk Control Summary Sheet.

Plant/Equipment Description: *Speed -Vac Vacuum Press.*

Issue Date: 20 / 09 / 05

Revised Date: N / A

Hazard Type	Risk Score	Risk Control
Crushing – potential fingers/hand at front & rear of press between lid & base.	Low	Training & signage at front & rear of vacuum press.
Ergonomics – potential musculoskeletal (MSD) injury due to reaching and frequency of task.	Low	Training & job rotation as necessary. Use two hands to raise/lower lid as necessary. Set vacuum press height to match operator height to reduce/eliminate excessive reaches.

Note: New Machinery Hazard / Control Summary Sheet to be read in conjunction With Speed – Vac Vacuum Press Handbook.

All operators must be familiar with the handbook and properly trained prior to use of the machine.
